

Verde Levanto

The background of the image is a high-angle, wide shot of a natural stone quarry. In the foreground, there are large, light-colored rock formations and a dirt road. In the middle ground, there are several large, rectangular blocks of stone stacked in rows. In the background, there are more rock formations and a clear blue sky with a few wispy clouds. A dark, semi-transparent rectangular box is overlaid on the right side of the image, containing white text.

Bengi Marble stands out in the natural stone industry with its 30 years of experience, commitment to quality, and principle of reliable service. Offering a sustainable supply of blocks, slabs, and cut-to-size products, our company adds value to the natural stone market by providing not only standard products but also customized solutions developed in line with the specific needs of our customers.

Through our quarry and factory partners located in various regions of Türkiye, particularly in Antalya Saklıkent and Demre, Isparta, and Muğla, we have established a strong and extensive supply network.

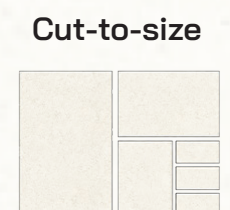

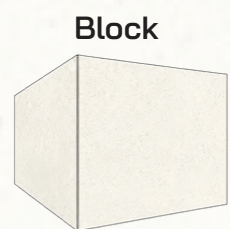

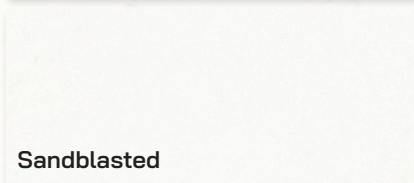

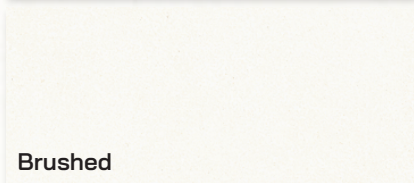

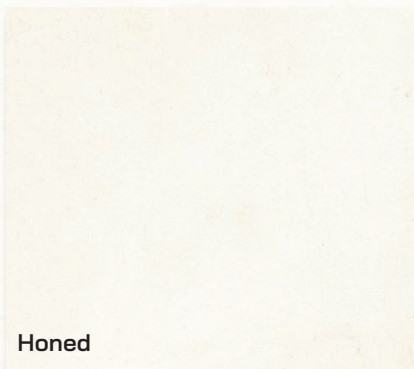

At every stage of our production and supply processes, we prioritize quality, efficiency, and sustainability. We process natural stone in accordance with international standards while preserving its aesthetic, unique, and durable character, and deliver it to our customers with the highest level of care. Thanks to our strong operational structure and our supply capabilities across a wide range of product groups, we develop market- and project-specific solutions.

Serving customers in numerous countries across Asia, Africa, Europe, and the Americas, with a particular focus on the Chinese market, Bengi Marble continues to expand its international operations with a customer satisfaction-oriented approach. Through our consistent supply capabilities and reliable business practices, we aim to build long-term relationships with our customers and business partners across different regions.

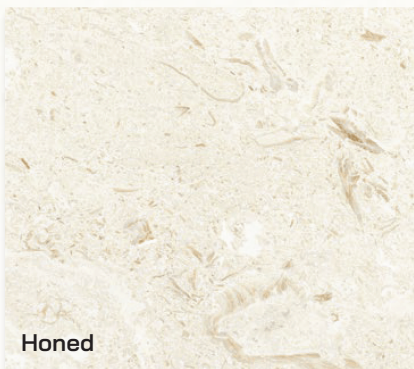

At Bengi Marble, supported by the strength of our experienced and qualified team, we aim to grow together with our business partners, carry our brand into the future, and represent Turkish natural stone in the best possible way in global markets.

Our Offices in China and Egypt

At Bengi Marble, our strength in international markets comes not only from our production capacity, but also from our efficient operational structure and our close proximity to target markets.

Our office in China, one of the world's most important centers for the natural stone industry, plays a strategic role in sales, customer relations, order tracking, logistics coordination, and the management of export operations.

With our newly opened office in Egypt, we also aim to establish a strong presence in this market.

Thanks to our local presence in the Chinese and Egyptian markets, we are able to monitor our customers' needs directly, respond to their requests more quickly, and manage the production and shipment processes carried out from Türkiye in close coordination with our local teams.

This structure accelerates communication while contributing to more controlled, organized, and reliable deliveries.

Through our China office located in Nan'an, Fujian Province and our newly opened office in Egypt, we provide on-site support to our customers and bring the quality of Turkish natural stone to global markets through a faster, stronger, and more reliable operational approach.
